

NAX Motorcycle Rider Training

Road Ride

This course is designed for those looking to gain experience and confidence on the road.

On this course: We will take you through a few aspects of road riding with primary focus on staying safe developing skills in positioning, buffering and hazard perception. You will also gain confidence, in using indicators, changing gears, changing lanes, slowing and stopping, higher speed cornering

This course will also get you ready to take road ride component of the pre-provisional course

Our courses are run on a **1 to 1** basis so you get our full attention. You are not rushed or hampered by other riders being at different skill levels. We take an in-depth look at your riding in a very personal and professional manner.

Take a look at what our [customers are saying](#)
